Project - Misha Culver's

Transforming the Ordinary into the Extraordinary

Fitness enthusiast Misha Culver transformed her bulky traditional staircase into a stylish floating staircase. The floating stairs not only enhance the flow of light and open up the space, but also maximize the use of space, creating a vibrant area for her workouts.

Authorized Muzata Distributor

Whether you operate an online platform or a physical store, becoming a Muzata distributor is a great opportunity to expand your business. Muzata's floating stairs feature high quality and modern designs. We offer competitive prices to enhance your product lineup and help boost your sales.

Product Supply Partnership

We aim to be your preferred floating stair supplier for projects. Muzata stairs are minimalist, durable, and suitable for both residential and commercial applications. We are committed to offering favorable pricing and competitive discounts to support your project needs.

Showroom Collaboration

If you have a showroom, Muzata's floating stairs will be a unique and eye-catching display to attract customers. We provide stylish, modern designs, and through online exposure, we help drive more foot traffic to your showroom, enhancing your brand presence and attracting potential clients.

Installer Recruitment

With thousands of clients across the U.S., Muzata is seeking experienced installation professionals. By joining our installation network, you'll receive referrals from local customers. There's no joining fee, and you can set your own service rates and schedule, making the most of your expertise.

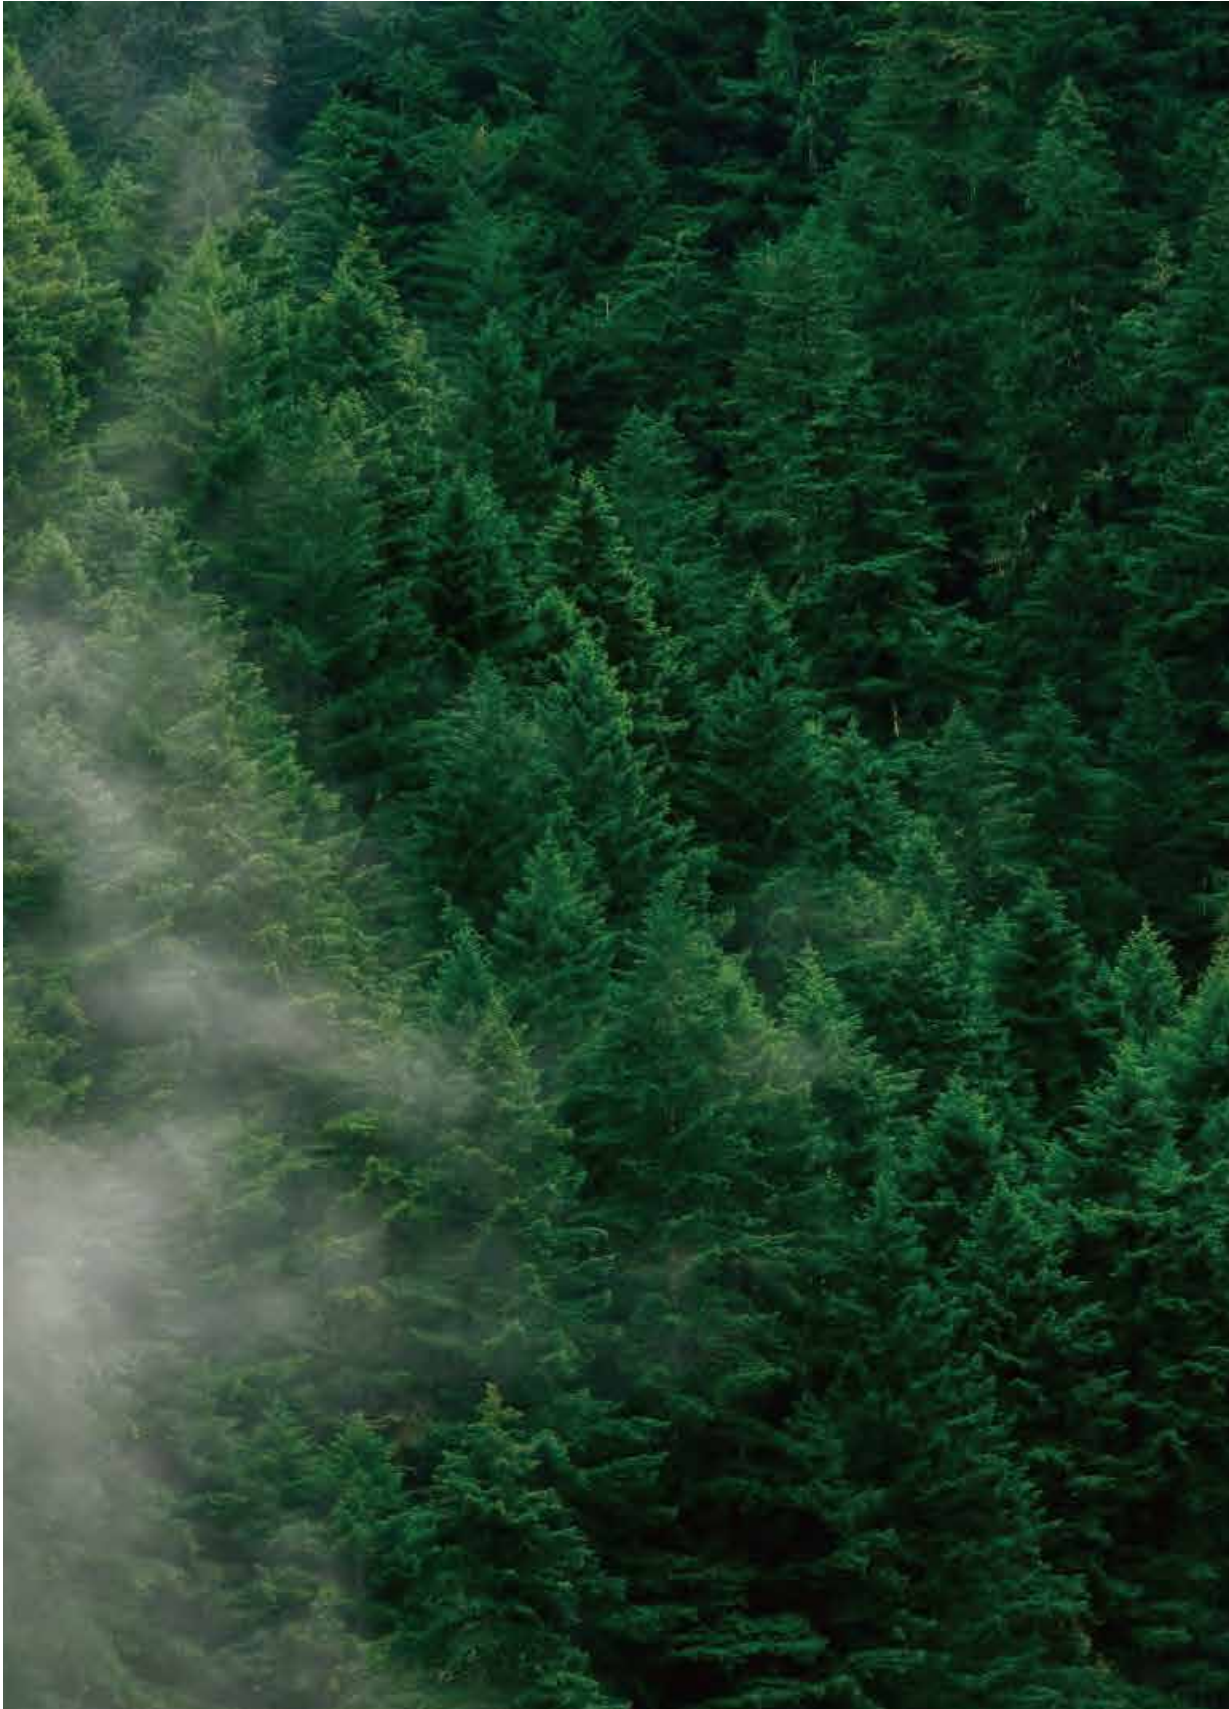

Engineer Collaboration

As a staircase company serving all of the U.S., Muzata ensures all designs and products comply with local regulations. We welcome experienced engineers with stair construction expertise to join our network. Paid collaborations help us maintain leadership in the staircase industry, ensuring our products remain compliant and innovative.

07 Social Responsibility

Support the Earth

Eco-friendly Materials

In product development and production, we choose renewable materials and environmentally friendly materials as much as possible.

Green production

We use advanced industrial technology and equipment to minimise the generation and emission of pollutants during the production of our products.
